Portfolio: darpenbhandari.com

Summary

Data Analyst/BI Analyst with 5 years building KPI reporting layers on top of healthcare IT and finance operational data. Delivered Power BI-ready datasets and SQL/Python-backed validations, reducing manual weekly reporting and improving SLA monitoring reliability. Strong with SQL/Python, dbt KPI logic, DAX modeling and automated refresh and quality gates to keep stakeholder numbers consistent.

Professional Experience

Data and System Analytics Associate (Part-Time)

12/2025 – 05/2026

Universitätsklinikum Heidelberg, Heidelberg, Germany

- Reduced manual weekly reporting effort by 35% by mapping qTest and Matrix42 data into Power BI datasets for Incident, Service Request and Test Execution.
- Improved SLA monitoring reliability by 30% by defining KPI logic, validating qTest and Matrix42 source data and building SQL/dbt reporting marts for weekly Power BI dashboards.
- Improved reporting releases using GitHub Actions CI/CD gates before publishing reporting updates.

Senior Software Engineer

03/2019 – 10/2023

Hexaware Technologies Pvt. Ltd., Navi Mumbai, India

- Delivered Power BI and Excel reporting solutions across 22 financial portfolio applications for AUM, performance tracking, reconciliation analysis and SLA reporting.
- Reduced month-end reconciliation effort by 30% by implementing incremental ETL/ELT with ADF triggers, failure alerts and retry logic tied to reporting schedules/SLAs.
- Automated 60% of Excel-based reporting refreshes using SQL, Python, Power Query and structured reporting layers, improving dashboard refresh reliability and reducing manual reporting dependency.

Projects

Smart Energy Forecasting Pipeline, Master's Thesis

04/2025 – 09/2025

SRH Hochschule Heidelberg, Heidelberg, Germany

- Built KPI-ready datasets for electricity usage, solar generation, forecast error and cost analysis using SQL, Python and dbt transformations.
- Produced dashboard inputs and decision metrics using MAE, RMSE and R^2 to support 12% potential energy savings analysis.

DB Train Delay and Route Reliability Pipeline

05/2026 – 06/2026

Personal Project - GitHub

- Built route reliability analysis for German train delay data with 11+ KPIs covering average delay, cancellation rate, route category performance and late-arrival patterns.
- Improved KPI output quality by 25% through duplicate checks, missing-route validation, late-arrival handling and automated data quality checks.

Education

M.Sc. Applied Data Science and Analytics

10/2023 – 09/2025

SRH Hochschule Heidelberg, Heidelberg, Germany

Technical Skills

Analytics Querying: SQL, Python, Excel, Data Cleaning, Data Validation

BI Visualization: Power BI, Tableau, DAX, Power Query, KPI Dashboards

Reporting & Business Analysis: SLA Reporting, AUM Reporting, Reconciliation Analysis, Ad Hoc Analysis

Data Preparation: ETL/ELT, Reporting Layers, dbt, REST APIs

Soft Skills: Stakeholder Communication, Business Requirement Analysis, Problem Solving, Ownership

Languages

English: C1 (Professional working proficiency) | **German:** B1 (actively improving, B2 target)

Certificates

Microsoft Azure Fundamentals (AZ-900) | **Databricks** for Data Engineering | **NVIDIA** Deep Learning Fundamentals
