Summary

Data Engineer with 5 years of experience building ETL/ELT pipelines, integrating data through REST APIs and supporting Azure based data workflows. Hands on experience in Python, SQL, Azure Data Factory, Data Lake and CI/CD with Power BI used as the downstream layer for KPI reporting and business visibility.

Skills

- **Core:** Python, SQL, PySpark, Pandas, NumPy, DAX, Flask
- **Cloud & Pipelines:** Azure Data Factory, Azure Data Lake, Azure SQL, Azure Storage, Databricks, ETL/ELT, CI/CD
- **Data & Analytics:** Data Modelling, Schema Validation, Data Quality, REST API Integration, Power BI, Tableau, KPI-Design, FastAPI
- **Tools:** Git, Azure DevOps, Jira, SAP Fiori, SAC Dashboard
- **Soft Skills:** Stakeholder Communication, Analytical Thinking, Problem Solving, Documentation, Ownership, Cross-functional Collaboration, Scrum Collaboration

Professional Experience

Student Assistant - Data and System Analytics

Universitätsklinikum Heidelberg

12/2025 – Present
Heidelberg, Germany

- Integrated Matrix42 and qTest data via REST APIs and SQL transformations, creating structured datasets for incident, service request and test analytics while reducing weekly reporting effort by 20%.
- Migrated flat-file reporting workflows to Azure Data Lake using Azure Data Factory implementing incremental loads and scheduled triggers to automate KPI tracking for SLA breaches and recurring incidents.

Senior Software Engineer - Data Engineering Focus

Hexaware Technologies Pvt Ltd.

03/2019 – 10/2023
Navi Mumbai, India

- Led data delivery for 22 financial applications by building ADF based ETL pipelines with Azure Data Lake, validation checks and CI/CD support, improving reporting reliability with zero SLA breaches.
- Automated manual Excel based reporting for AUM, portfolio exposure and performance views into Power BI ready datasets, saving around 10 hours of weekly reconciliation work.
- Improved data accessibility for US portfolio teams through pipeline outputs into raw, processed and curated layers in Azure Data Lake reducing manual data handling by 10% and enabling faster reporting access.

Education

Master's in Applied Data Science and Analytics

SRH Hochschule Heidelberg

10/2023 – 09/2025
Heidelberg, Germany

Bachelor of Science in Information and Technology

KES Shroff College

07/2015 – 04/2018
Mumbai, India

Projects

Master's Thesis – Smart Electricity and Energy Optimizer Usage

SRH Hochschule Heidelberg, Heidelberg Germany

04/2025 – 09/2025

- Built an end-to-end Python and PySpark pipeline to ingest, clean and integrate electricity and solar consumption data, preparing time series datasets for forecasting and cost optimization.
- Developed modular forecasting workflows with parameterized source paths, aggregation windows and forecast horizons, identifying potential energy savings of 10 to 12% across different building profiles.

Languages

- English - Fluent (C1)

- German - Intermediate (B1)

Certificates

- Microsoft Azure Fundamentals AZ-900

- Fundamentals of Deep Learning- Nvidia

- SAS Certified Specialist: Visual Business Analytics
